

HPSL-Workshop

Friday, 26 October 2018, 2-6.45 pm

Second and Foreign Language Acquisition and Learning Across Contexts

Taking Prof. Ana Llinares' (Universidad Autónoma de Madrid) visit and her guest lecture in Basel as a starting point, this workshop seeks to bring together researchers working on second or foreign language acquisition and learning, as well as its application in teaching.

The format of the workshop is based on 20-min inputs by the following invited researchers:

- Prof Ana Llinares (Universidad Autónoma de Madrid)
- Dr. Catherien Diederich (Institut Fachdidaktik Sprachen)
- Jinying Li (Universität Freiburg)
- Stefanie Meier (Universität Basel)
- Aline Bieri (Universität Basel)

The presentations are followed by more extensive discussions with regard to three focal points: approaches and methods, the role of context, and application of research.

The workshop is open for PhD students to attend and participate in the discussions; interested candidates send an email to aline.bieri@unibas.ch by Oct. 22. For more information, please look at the preliminary programme online <http://www.hpsl-linguistics.org/events>.

Dpt. of English, Nadelberg 6, room 13
